\$10,000 STEAM Program donation from Lockheed Martin

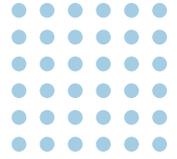

At Art Smith Aviation Academy, we are excited about the positive impact this donation will have on our STEAM program. The contribution has allowed us to enhance our Flight Simulators, moving us closer to achieving a one-to-one system for our classes. The generosity of this donation is enabling us to expand and upgrade our flight sim room by adding more equipment, improving our computers, and updating software. Our STEAM program, which encompasses science, technology, engineering, art/athletics, and math/music, is a cornerstone at Art Smith. Additionally, each grade enjoys a unique aviation-based curriculum, with a dedicated aviation class at ASAA. While Lockheed Martin's support marks our first interaction with them, we are immensely grateful for their generosity and the positive impact it will have on our students' education.

Elementary
School**

CLES kiddos learned about Indigenous traditions last week during their Winter Celebration! They learned how to snowshoe and how to harvest maple syrup. The beautiful weather was perfect for snow painting, sledding, making bird feeders and frozen maple syrup taffy.

CLES students were thoroughly entertained by 3 Hat Circus! Noah and Joey shared their awesome tricks and messages about TEAMWORK!

Pep Rally - Basketball

The Cobras are well into basketball season and doing well. On Feb 2nd a Pep Rally was held to introduce all of our teams to our student body... then of course we had to play hungry hippos!!

Author Visit

Sigmund Brouwer worked with our entire student body to encourage creative writing and for the grade 9s helpful tips for success when writing their PATs in June.

Dwayne Peace

Dwayne spent two days with our students talking about bullying, asking adults for help when needed, choices and accountability.

Duclos Introduces House Teams

The week before Christmas holidays we made an exciting announcement at Duclos. All students, and staff would be placed into house teams. The colors are Red Fire Dogs, White Epic Dogs, Grey Mighty Dogs, and Black Super Dogs.

Every house team also has their own team chant. Each time we have a school themed day, like pajama day, jersey or spirit day, teams get points for every one who participates.

You can hear kids in the halls every day asking other students which team they are on .

During the last week in January we had picnics every day in the gym. Students and staff were asked to wear their colors for that day and we would all introduce ourselves to our teams.

There's nothing better then some friendly competition.

Community Connections

Hands on learning

The Alberta Trappers Association came and discussed the importance of conversation in Alberta to the grade 4 class. Students learned first hand about safe trapping, use to furs, and the history of the fur trade. The students were able to have some hands on experience with different types of furs.

The Grade 6 Class of Glendon School participated in their own public speaking event on February 8, 2024. After a month long process of writing, editing and practicing their oral communication skills, the class bravely presented their topics of interest to their peers, parents and judges. A special thanks to Mrs. Pat Berlinguette and Mr. Ken Pshyk for volunteering your time and talents to judge our class learning project.

Additionally, the Gr.6 class participated in the national Valentine for Veterans program from Veterans Affairs Canada. The learning outcome is to help youth understand the significance of the sacrifices and achievements of Canada's Veterans and Canadian Armed Forces Members.

06

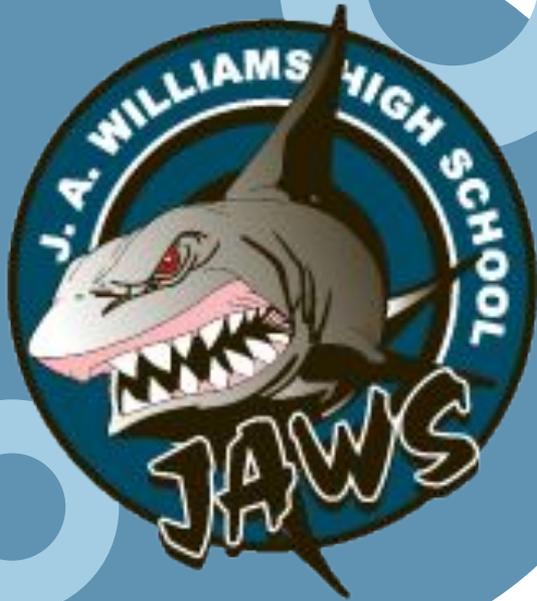

H.E. Bourgoïn School

HEB students are enjoying a thriving industrial arts program! Students take pride in learning woodworking skills and more. They love showing off their creativity!

J.A. Williams High School

We have a lot to be **THANKFUL** for

- Parent Council made a pancake breakfast each day for exam week.
- We received a \$500 donation form the LLB Kinettes to fund our tea station in the library.
- Interact Club sold candy grams and carnations as a fundraiser and plan to donate money to purchase needed menstrual products for SST to give out to students who need.

Thank you!!!

Basketball season is underway. Students have been travelling to compete. Thank you to their coaches for their time & dedication!

Wood Working- Students are beginning the new semester making a toolbox.

Science

Students participated in a heart dissection in Biology.

Science 14 students are enjoying experiments like the egg drop!

Thank you for creating great experiences for students!

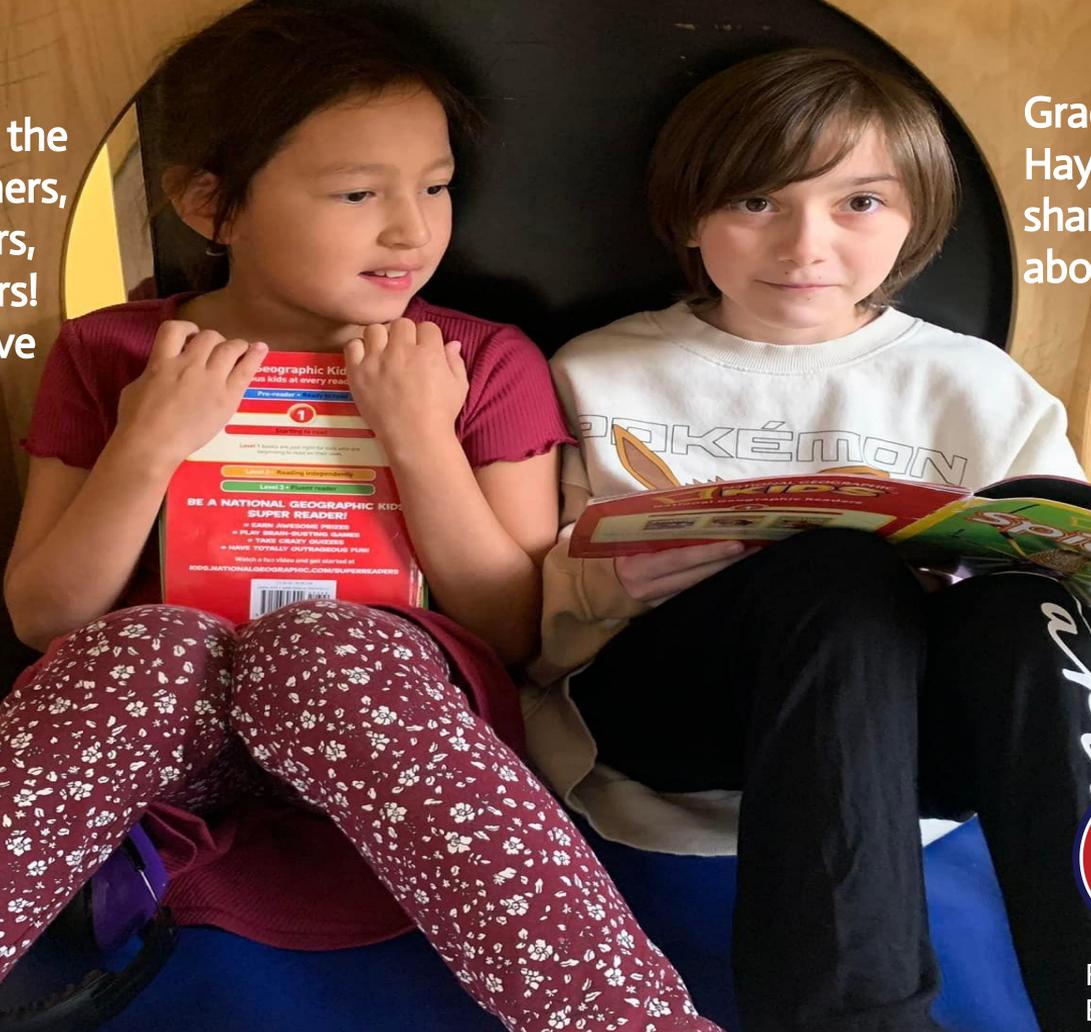

08

**Kikino
School**

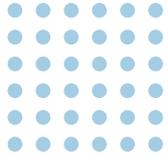

Levelled literacy interventions takes the entire village. Teachers, EA's, student readers, and student listeners! Together we improve reading rates, one book at a time.

Grade 4 students Hayla and Elyse share a good book about spiders!

For Feb. 28th
Board Mtg.

Learning Together Anywhere

LTA's NEW Website

In response to a substantial increase in student enrollment, our school has experienced remarkable growth, expanding from 20 to 57 students this year. With the anticipation of continued growth in the coming year, we are thrilled to unveil our newly revamped website.

This updated platform provides a crystal-clear representation of the comprehensive offerings at our school and simplifies the enrollment process for prospective students.

How Learning Together Anywhere Can Help Your Child

Community is Everything

At our online school, we understand the unique challenges students face in terms of attendance, academics, anxiety, and community belonging. Our inclusive, family-oriented approach has been instrumental in helping many students regain their academic confidence, particularly those affected by the pandemic or other personal struggles. We prioritize a supportive and inviting atmosphere where each student's needs are met with care and understanding. Our dedicated team works tirelessly to ensure every learner feels valued, connected, and empowered on their academic journey. This personalized approach not only addresses academic concerns but also fosters a sense of community and belonging, helping students overcome anxiety and thrive in a nurturing online environment.

LOVE MONSTER

Escape Challenge

In an epic quest, the Grade One squad at North Star Elementary School took on five exciting math and literacy challenges to unveil the mystery of the tearful culprit! With teamwork as their superpower, these little heroes not only cheered up the Love Monster but also became teamwork champions in the process!

Vera M. Welsh Elementary School

In January, our school's Positive Behaviour Support team introduced our behaviour matrix expectations to students. These expectations were created by staff using child-friendly language, under our overarching statements to Be Respectful and Kind, Be Responsible and Honest, and Be Safe.

Starting with a focus on hallway behaviour, students are working to earn Turtle Tokens! Students showing appropriate hallway behavior are recognized by staff, who highlight their positive actions and give them a Turtle Token. Students place their tokens in the Turtle Token Tower. Once the tower is filled, a school-wide celebration is earned! Our first celebration was a movie in the gym!

Division Office

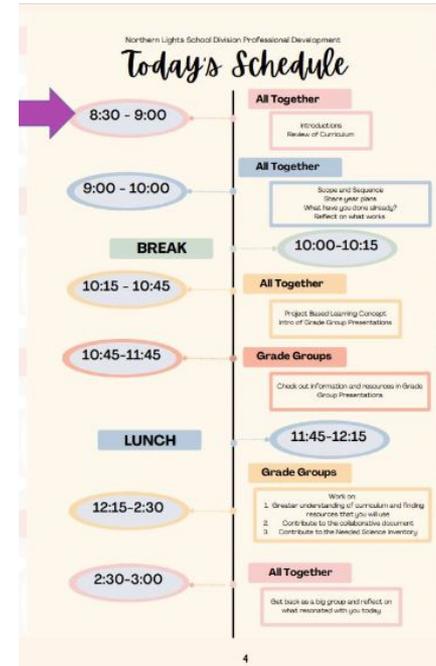

Northern Light School Division K-3 New Science Curriculum

Learning Network

Kindergarten to Grade 3 teachers gathered at Cold Lake Elementary School to collaborate and learn about the new Science curriculum on Tuesday, February 20. This was the first of three sessions with the second one being in Bonnyville on February 28 and the final one in Lac La Biche on March 1. Teachers had the opportunity to share their own year plans, learn about resources available from around the province and collaborate on an inventory list of resources that may be required.

Thanks!
